

HB 2108 - DIGEST

Provides that the committee may not prohibit or limit an otherwise qualified public body from receiving a grant or funds for a project from any source controlled by the committee solely because the public body is also receiving a grant or funds for the same project from other sources, including other local, state, or federal sources.

Applies to a public body that currently has at least fifty percent of the funds required for a project, excluding state or federal funds, secured at the time the public body applies for a grant or funds for the project from any source of grant or funds controlled by the committee.
